# ENERGY YOU CAN FEEL

GRAPHENE 360+ IS THE COMBINATION OF HEAD'S SIGNATURE GRAPHENE 360 TECHNOLOGY FOR OPTIMIZED ENERGY TRANSFER AND THE INNOVATIVE SPIRALFIBERS FOR ENHANCED FLEX AND A CLEAN IMPACT FEEL.

**HEAD**<sup>®</sup>  
.COM

# MORE THAN TECHNOLOGY

Every single racquets has its own DNA. Some will feature control and precision, other power or comfort. For this reason, HEAD has developed the Smart Bridge to adapt the bridge area to the needs of each racquet.

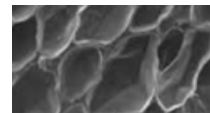

The identity of every racquet is unique; some are characterized by control and precision, others by power or effect. For this, HEAD has developed the Optimized Sweet Spot in order to adapt every drilling pattern to the particularities of each racquet.

POWER FOAM: is the perfect ally for maximum power. The speed your ball will reach will surprise your opponents as much as yourself.

COMFORT FOAM: is the ideal rubber for the player who wants maximum comfort. It also absorbs the vibrations at the same time as increasing the power of your shot.

EXTREME SPIN: This rough surface with circular form multiplies the extreme spin on the ball.

EXTREME SPIN: the Integrated Protector is a pre-molded carbon bumper that protects your racquet from chips and scratches, which extends the lifetime of your racquet.
